19. death	19. meadow	19. breath
20. breath	20. lead	20. breathless

Writing Exercise

Pretend you are a newspaper reporter. Write an article about something that happened (or make up something that happened) in your area.

In your “article” tell about the event that happened in the first paragraph. The second paragraph should tell why it happened (or the facts or situation that caused it to happen). And the third paragraph should tell what is being done about it after it is over.

This should be at least 3 pages long (skipping lines).
